PROFILE

Enthusiastic Computer Science graduate with an interest in building full-stack web applications and AI-integrated solutions. Experienced in creating responsive interfaces and passionate about developing smart, user-focused products.

EXPERIENCE

Frontend Developer Intern | Baoiam Innovations Pvt Ltd

Nov 2024 - Feb 2025

- Collaborated on frontend development using React.js to create and improve user interfaces, ensuring they are visually appealing and functional.
- Took primary responsibility for the user profile page, improving its design, usability, and integration with backend APIs.

Frontend Developer Intern | Small Fare™

July 2025 - Present

- Contributing to the frontend development of a payment service application using Next.js and TypeScript, with a focus on building responsive, user-friendly interfaces.
- Collaborating with the team while deepening understanding of the codebase and tech stack to deliver high-quality, maintainable features.

PROJECTS

Fitness AI App | NextJS, Tailwind-CSS, Clerk, ConvexDB

- Developed a full-stack fitness mentorship app using **Next.js** that functions as a personalized AI trainer by analyzing user inputs to generate dynamic diet and workout plans.
- Integrated **Clerk** for seamless authentication, **Vapi** for voice assistant capabilities, and **Convex** for real-time database management and backend logic.
- Focused on intuitive UX, custom styling, and smooth cross-device performance.

AI Interview Prep Platform | MERN Stack, Tailwind CSS, Gemini API

- Developed a fully responsive platform using **React.js** and **Tailwind CSS** for a clean, intuitive UI.
- Built backend services with **Node.js** and **Express.js**, and managed data storage with **MongoDB**.
- Created RESTful APIs to handle user inputs, roles, and interview session workflows.
- Integrated the **Gemini** API to generate personalized, role-based interview questions and answers.

Task Manager Web App | MERN Stack

- Developing a responsive task management app with a clean UI using **React.js** and **Tailwind CSS**.
- Building RESTful APIs with **Node.js** and **Express.js** for tasks, user assignments, and roles.
- Implementing Role-Based Access Control (**RBAC**) to manage admin and member permissions.
- Using **MongoDB** to store tasks, priorities, due dates, and user-related data efficiently.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS,

Frameworks/Libraries: React.js, Next.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL, Convex

Tools: Node.js, VS Code, Git, GitHub, Postman, Figma

Other: RESTful APIs, Responsive Web Design

ACHIEVEMENTS & CERTIFICATIONS

- **TCS iON NQT:** Scored 61% in TCS iON NQT 2024
- **Advanced JavaScript (ES6) :** LinkedIn
- **Python for Beginners:** Simplilearn

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering**
Marathwada Institute of Technology Chh Sambhajinagar

2021-2025
