PROFILE

Frontend-focused Full Stack Developer experienced in React.js, Next.js, TypeScript, and REST API integration. Skilled in building scalable, responsive web applications using Node.js and Express, implementing authentication, RBAC, and database-driven workflows.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive UI Design, Performance Optimization

Backend Development: Node.js, Express.js, REST API Integration, Authentication, RBAC, SaaS Workflow Development

Databases: PostgreSQL, MySQL, MongoDB, Convex, Prisma ORM, Database-Driven Applications

Tools & DevOps: Git, GitHub, Postman, Vercel, Netlify, Render, CI/CD, API Testing

PROFESSIONAL EXPERIENCE

Full Stack Developer | IP SUPER SHOPPEE Pvt Ltd

Sep 2025 – Present

- Developed a Google Ads campaign management module using React.js and Node.js, supporting campaign creation, monitoring, and optimization.
- Integrated REST API endpoints and optimized data flow, reducing analytics response time by 30% and improving real-time reporting stability.
- Performed UI testing and API validation across user workflows, reducing frontend-related production issues and regression bugs.
- Contributed to production SaaS features, focusing on performance optimization, reusable component architecture, and scalable frontend patterns.

Frontend Developer Intern | Small Fare Pvt Ltd

Jun 2025 – Sep 2025

- Developed a responsive admin panel using Next.js and TypeScript, building reusable UI components used across transaction and user management modules.
- Integrated REST APIs and optimized frontend rendering, improving dashboard load performance and data refresh consistency.

Frontend Developer Intern | Baoiam Innovations Pvt Ltd

Nov 2024 – Feb 2025

- Implemented and enhanced React.js frontend features by integrating backend APIs supporting core user-facing workflows.
- Redesigned the Profile Page layout and API handling, improving usability across screen sizes.

PROJECTS

AI Interview Prep (PrepMate)

React.js, Node.js, Express, MongoDB

- Developed a production-ready AI interview platform generating an initial set of **10 role-based questions** with dynamic expansion using the Gemini API.
- Implemented role, experience, and skill-based interview flows to closely simulate real-world interview scenarios.
- Designed scalable backend APIs and optimized frontend state management to support concurrent interview sessions.

AI-Powered Expense Tracker (Tracklet)

Next.js, Clerk, Gemini API

- Built an AI-powered expense tracking dashboard that reduced manual expense tracking by **60–70%** through automated insights.
- Implemented secure authentication and session management using Clerk for personalized user experiences.
- Developed interactive charts and AI-driven analysis for category-wise and trend-based expense insights.

Voice-Driven AI Fitness (FitBot)

Next.js, Convex, Vapi AI, Clerk

- Developed a voice-driven AI application that generates personalized workout and meal plans immediately after user conversations.
- Implemented conversational voice workflows to capture real-time user inputs and trigger instant plan generation.
- Designed scalable backend workflows using Convex with a responsive UI optimized for cross-device usage.

EDUCATION

Marathwada Institute of Technology (CGPA: 7.32)

Bachelor of Technology in Computer Science and Engineering

Aurangabad, Maharashtra

2021 – 2025
