PROFILE

Passionate full-stack developer creating innovative web applications and AI-powered solutions, focused on delivering responsive, intuitive, and impactful user experiences.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Small Fare™ 07/2025 – Present

- Currently contributing to the frontend development of a payment service application using Next.js and TypeScript, focusing on building responsive, user-friendly interfaces.
- Collaborating with the team to deliver high-quality, maintainable features.

Frontend Developer Intern | Baoiam Innovations Pvt Ltd 11/2024 – 02/2025

- Collaborated on frontend development using React.js to create and improve user interfaces, ensuring they are visually appealing and functional.
- Took primary responsibility for the user profile page, improving its design, usability, and integration with backend APIs.

PROJECTS

AI Interview Prep Platform (PrepMate) 🌐

- Developed a fully responsive platform using **React.js** and **Tailwind CSS** for a clean, intuitive UI.
- Built backend services with **Node.js** and **Express.js**, and managed data storage with **MongoDB**.
- Created RESTful APIs to handle user inputs, roles, and interview session workflows.
- Integrated the **Gemini** API to generate personalized, role-based interview questions and answers.

Fitness AI App (FitBot) 🌐

- Developed a full-stack fitness mentorship app using **Next.js** that functions as a personalized AI trainer by analyzing user inputs to generate dynamic diet and workout plans.
- Integrated **Clerk** for seamless authentication, **Vapi** for voice assistant capabilities, and **Convex** for real-time database management and backend logic.
- Focused on intuitive UX, custom styling, and smooth cross-device performance.

Expense Tracker AI (Tracklet) 🌐

- Developed an AI-powered expense tracker in Next.js that categorizes expenses, analyzes spending, and offers money-saving tips.
- Integrated Clerk for secure authentication and OpenAI via OpenRouter for AI-driven insights.
- Built real-time visualizations with React Charts to track spending patterns.
- Used Prisma with Neon PostgreSQL for efficient data management and Tailwind CSS for a responsive UI.

SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS

Databases: MongoDB, MySQL, PostgreSQL (Neon), Convex

Other: RESTful APIs, Responsive Web Design

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, shadcn/ui, Material UI, React Charts

Tools: VS Code, Git, GitHub, Postman, Prisma, Clerk, Figma

Deployment: Vercel, Netlify, Render

EDUCATION

Bachelor of Technology in Computer Science and Engineering

12/2021 – 07/2025

Marathwada Institute of Technology, Chh Sambhajinagar

CERTIFICATES

Python for Beginners
Simplilearn

TCS iON NQT
Scored 61% in TCS iON NQT 2024
